

DELTA ENIGMA: THE RELEASE OF NEW SINGLE 'UNREALITY'!

Delta Enigma, which brought 'Waterfall' to the world in May, now release their second single of the year. 'Unreality' doesn't follow in the footsteps of their previous release; it is something entirely different.

The song's visual narrative required 26 characters and shows the more eccentric capabilities of Vin Valentino.

Valentino excels in the art of subtlety, leaving the audience their own opportunity to form an understanding of the story. Springing into action at each opportunity to unveil something insightful beneath the surface, Valentino has outdone himself again. For this reason, this press release will not delve into the origin or creativity behind this piece, allowing everyone to form their own interpretation.

It should be noted the difficulties in having actors play multiple characters. Not all 26 characters could have a separate actor – Some actors had multiple roles throughout the video. It's pretty challenging to squeeze the story into a few minutes on a topic that could have been made into a movie, says Vin. Nevertheless, he believes the idea behind the story comes through. It will be interesting to see how many different conclusions are generated. What do you think happened to Alice?

Delta Enigma will return with their third single of the year, 'Venom', in the fall.

'UNREALITY' IS AVAILABLE ON ALL STREAMING SERVICES FROM JULY 31 AND VIDEO FROM AUGUST 7 ON YOUTUBE.

UPCOMING:

UNREALITY [2020]

Grey Beton Records

'Unreality' secretly blends in 70's and 80's style analog synthesizers with a modern rock arrangement. It is the second of three singles the band will release this year. 'Unreality' will be followed up with 'Venom'. Both of the upcoming singles will include a visually beautiful music video. Debut album "Two Shadows" is planned to be released by the end of 2020.
